PROFESSIONAL SUMMARY

Motivated and creative Data Science student with problem-solving skills and a strong foundation in Java and DSA. Passionate about Software Development, with interests in Full Stack Development, AI, and UI/UX Design. Known for quick learning and building practical, user-focused solutions.

EDUCATION

R.V.R. & J.C. College of Engineering, Guntur.	June 2027
Bachelor of Technology - Computer Science and Engineering (Data Science)	CGPA: 8.47/ 10
Sri Chaitanya Educational Institutions, Guntur.	March 2023
Higher Secondary School, Stream: M.P.C	Per: 92.5%
City Public School, Guntur.	March 2021
Secondary School	Marks: 592/600

SKILLS

- **Languages:** Java, Python, SQL, HTML, CSS.
- **Tools & Platforms:** Canva, Git, Github.
- **Design & Development Skills:** UI/UX Design (Figma), Firebase & Backend Services, Android Development (Android Studio).
- **Soft Skills:** Creative Thinking, Problem-Solving, Leadership, Collaboration.

EXPERIENCE

AWS Data Engineering – Virtual Internship	June 2025
Gained hands-on experience in designing and implementing data pipelines using AWS cloud services. Worked with AWS S3, AWS Glue, AWS Lambda and Amazon Redshift for data ingestion, transformation and storage.	

PROJECTS

Smart Community Complaint Application (AI Integrated)

- Developed a Smart Community Complaint Application to improve issue reporting and resolution within communities.
- Implemented AI-powered Smart Scan and chatbot features to assist users in submitting complaints efficiently.
- Enabled real-time complaint tracking and integrated a notification system for status updates.
- Utilized Firebase for backend services, including data storage and user authentication.
- Focused on enhancing user experience and automating the complaint handling process.

Job Recommendation System

- Developed a Job Recommendation System to suggest relevant job opportunities based on user profiles.
- Applied basic Natural Language Processing (NLP) techniques to analyze user data and match it with job descriptions.
- Improved job search efficiency by providing personalized job recommendations.

ACHIEVEMENTS

- Solved 100+ coding problems across LeetCode and CodeChef, strengthening problem-solving skills, DSA concepts, and programming fundamentals in Java.
- Developed an AI-integrated Smart Community Complaint Application with Smart Scan and chatbot features for real-world problem solving.
- Designed and developed multiple UI/UX projects for mobile and web platforms, gaining hands-on experience in user-centered design, frontend development, and Firebase integration.
